

ART CATALOGUE | Nina Verschaetse

A selection of works & thoughts
for collectors and art lovers

Welcome

Thank you for your interest in my work.

This catalogue brings together a curated selection of recent artworks, materials, and thoughts. It's created for collectors, texture lovers, and those drawn to quiet strength.

My work begins in observation and stillness. Each piece is an encounter — between material and emotion, between the visible and the felt. I hope you find something that lingers, or better yet: something that gently unsettles.

Whether you're here out of curiosity or considering a work for your space:

welcome. I'm glad you're here.

Artist statement

My work begins with paint — thick, unapologetic, physical.

I use palette knives to sculpt layers of color, sometimes impulsively, sometimes with precise intent. Each gesture leaves a mark. Each layer builds tension. What emerges are shapes that shift between surface and depth — between clarity and disruption.

I'm fascinated by contrasts: calm versus chaos, control versus spontaneity, intuition versus structure. I don't try to resolve these tensions. I give them space to exist together, to collide, to transform.

My paintings often play with dimension. The thick textures create a subtle 2D/3D illusion — figures that seem to move forward and recede, depending on how you look.

Color is a force in my work. Some series lean into softness and restraint. Others, like *Out of the Box*, are vivid, loud, and full of heat. I choose color not to please, but to provoke.

This is not about perfection. It's about presence. It's about giving emotion a shape — and letting the paint do the talking.

Materials & Technique

Linen Paint Texture

I paint on linen canvas — sometimes raw, sometimes primed — depending on the rhythm and resistance I want the surface to give. The canvas is not just a background; it's an active part of the work.

My technique is built around the palette knife. I apply thick layers of acrylic and oil paint, shaping forms through bold movement or careful construction. Some gestures are instinctive. Others are slow, intentional — almost like carving with color.

Alongside paint, I use inks — both water-based and highly pigmented types — to add contrast, flow, or intensity. These materials allow me to work with both weight and fluidity, density and transparency.

The result is a layered, tactile surface. One that blurs the line between image and object. Silhouettes seem to hover between two and three dimensions, pulling the viewer in and asking: are you seeing texture, or shadow?

Color plays a central role. Some works are soft and quiet. Others — especially in my *Out of the Box* series — are loud, bright, and fully present. I choose color as a force, not a finishing touch.

Each work is a physical act. I don't paint emotions — I build them. Layer by layer, surface by surface. Until the image starts to breathe on its own.

Biography

I'm a Belgian artist based in Bruges with studios in
Bruges and Wielsbeke.

My work balances abstraction and figuration, using rich textures
and expressive forms to evoke deep emotion.

Though mostly self-taught, my practice is deeply influenced by
international art movements — from the dynamic brushwork of
American Abstract Expressionism to the vibrant color and
experimentation of European and Asian contemporary art.

Working & traveling has broadened my perspective and informs
the layered, tactile quality of my paintings.

I've exhibited across Belgium, as well as internationally,
connecting with diverse audiences.

Each piece I create is both a visual composition and an
emotional landscape.

I don't aim for perfection — I aim for resonance
